COUNTY MOVES TO OBTAIN HELP FROM KELLOGG

Lokker Says Ottawa Is in Line for Projects of Foundation

Van Volkenburgh Named to Another Term on Relief Board

Grand Haven, Oct. 23 (Special)—The county board of supervisors yesterday named a committee to launch projects for which Kellogg foundation aid would be sought and unanimously reappointed James S. Van Volkenburgh, 20 East 18th St., Holland, to a three-year term on the county welfare commission.

Motion to retain Van Volkenburgh, who has been serving as county welfare director, was presented by Supervisor Peter H. Van Ark, Holland city assessor.

Van Volkenburgh has been a member of the commission since 1939 when the new setup for administering relief went into effect, replacing the former ERA. As county welfare director, he also has been serving as secretary of the county welfare commission.

Sheriff William Boeve appeared before the board to ask for action on his previous request for two-way radios in the cars of the sheriff's department.

It was pointed out that the state police cars are not so equipped. City Attorney Clarence A. Lokker of Holland, who stated that the board is so lacking in information that he did not think the board was ready to consider the proposal, supported a motion by Mayor Henry Geerlings of Holland that the matter be tabled.

Sheriff Boeve also asked for an increase of \$100 in the salary of each of deputies which was referred to the county officers' committee.

Reporting on the committee's visit to Battle Creek Tuesday in which it conferred with representatives of the Kellogg foundation for support of the county health department, Lokker said the delegation was informed that Ottawa county "stands in line, not second or third, but equal to the first with the foundation so that any request made by the county is going to receive favorable consideration."

He said the foundation plans to take over such specific projects as diagnosis of physical ailments which the more indigent types of citizens cannot afford. The foundation desires to establish medical clinics and laboratories to include laboratory and x-ray equipment which will cost about \$32,000.

The second project in which the foundation is said to be interested is the modernization of rural schools. Lokker said the foundation representatives feel that the rural schools are badly in need of modernization.

Ottawa county should attempt to start one of these projects as it would take considerable time before the county could be organized sufficiently to go to the foundation with a special request that it install one or more of these projects in this county, Lokker stated.

He stated that "something should be done to light the fuse with the Ottawa County Medical association" and that the school commissioner "could make himself outstanding if he would take hold of this, make a survey and go after such a grant so that Ottawa county schools will have a system outstanding in the state."

Phil Rosbach moved that Chairman Charles Lowing appoint the school and health committees to act in this matter. In appointing the school committee, Lowing named D. H. Vande Bunte, county commissioner, as chairman, and the health committee with Dr. Ralph Ten Have, health commissioner, to get the two projects started.

Lacking proper support, the motion of Van Ark that Ottawa county adopt a new method for payment of adult hospitalization cases, was dropped.

A report from the soldier's relief showed a balance on hand of \$1,688.12. The relief asked for an appropriation of \$1,000 which was referred to the budget and finance committee.

Mr. and Mrs. Fred Graham in a communication thanked the board for the purse received on their golden anniversary.

On a motion of John H. Ter Avest, present members of the board of county canvassers—Peter Damstra of Holland, Benjamin Van Loo of Zeeland and James Scott of Coopersville—were re-elected.

Defense Bond Parade Here to Be Postponed

Jacob Barendse, commander of the Willard G. Leenhouts post, No. 6, American legion, announced today that the parade and program arranged for Monday night to boost the sale of defense bonds and stamps in Holland has been postponed until a later date. He said the postponement was due to the fact that necessary arrangements could not be worked out in time.

Tulip Bulb Planting in and Near Holland Is Finished

Blooms to Be Three Deep Along Curbs; Garden Spots Planned

With 3,000,000 tulip bulbs under six inches of good earth in and near Holland, this community again is awaiting the cycle that will produce the colorful blooms that make the Tulip Time festival famous.

Completion of the fall planting finds more than 2,000,000 bulbs in beds at the tulip farms and the remainder along city curbs and in

local parks, Festival Manager S. H. Houtman said.

The fact that the bulbs have been placed is proof that, although imports have been cut off from The Netherlands, this section by growing its own will experience no shortage of tulips.

John Van Bragt, for a score of years superintendent of the municipal park department, has this year increased his boulevard bulb plantings to three deep, where previously there were but two tulips abreast in each row.

Tourists along the tulip lanes will find another innovation next May. Designated garden spots will dot the tulip bordered streets wherever especially attractive plantings warrant a few minutes stop-over.

The only concern about the new arrangement of garden spots along the tulip lanes is expressed by traffic authorities who insist that cars must be kept moving on Saturdays and Sundays when the traffic situation becomes acute. At other times parking areas will be reserved near the garden spots.

The tulip lanes will be changed only in that 20th St. will be substituted for 19th between Washington and State Sts.

The tentative list of garden spots includes Kollen park, west of the Heinz plant, the Weller garden on West 17th St. just outside of the city limits, the Prospect church triangle, the group of homes on State and 28th Sts., the Prospect park tulip cultivation project, the 19th St. pumping station, Lincoln park and Centennial park.

A supplementary tour would leave the tulip lanes at 12th St. and College Ave. to go around the college grounds, touch on Lincoln park and return to the lane where it left off.

What is probably America's most colorful folk-festival can now be viewed from afar by garden club members. An 800-foot colored moving picture of Tulip Time is available. The picture is a 16 mm. size taken by Lloyd Bemiss, nationally known school assembly lecturer. This film has already been booked for garden club showing for a year in advance.

African Missionaries Leave Today for N.Y.

The Rev. and Mrs. E. H. Smith who have been spending several months of their missionary furlough in Holland left the city today for New York and plan to sail from there to resume their work in the Sudan Interior mission in Nigeria, Africa.

The Smiths' sailing date is uncertain and no reservations were available. However, the couple expressed hope of obtaining tickets from some of the missionaries who are being delayed temporarily because of passport difficulties.

In New York the Smiths will be joined by Anita Vissia, a registered nurse of Grand Rapids, who will sail for Africa for the first time.

The missionaries' children, Alyce Jean, 6, and Paul Edgar, 3, will remain with Mrs. Smith's parents, Mr. and Mrs. John Breen, 245 West 15th St.

Muskellunge Hooked by Local Fisherman

While numerous other sportsmen are taking to the woods in search of pheasants, S. H. Houtman, Paul Michielson and Carl Albrecht, all of Holland, went fishing in Lake Macatawa Wednesday afternoon, just west of Virginia park.

A short time later Michielson hooked a "muskie" while holding Albrecht's pole but this fish got away.

Police Give Warning on 'Treat or Trick Racket'

Police Chief Jacob Van Hoff today issued a stern warning to local boys and girls that the "treat or trick racket" will not be tolerated in Holland.

This is generally operated on Halloween, but Van Hoff said it is too early for such incidents. He reported the police department has received numerous complaints in the past week.

In one instance, a local woman gave two boys a dime each when they appeared at her house and then shortly afterward a larger gang appeared and tried to work the "racket." Chief Van Hoff urged cooperation of local parents by asking their children not to continue the nuisance.

HUNT ACCIDENT CLAIMS LIFE OF G.H. YOUNG MAN

Killed on Beeline Road as Three Stop in Car to Shoot Crows

Gun Goes Off While Being Loaded; Victim in Auto When Struck

Grand Haven, Oct. 23 (Special)—Sam Keniston, about 24, 1243 Fulton St., Grand Haven, was killed almost instantly about 10:30 a.m. today in a hunting accident on the Beeline road, about one-half mile south of M-50, when a gun, held by Bernard P. Fett, 17, 225 Columbus St., Grand Haven, was accidentally discharged.

Fett and Keniston's brother-in-law, John Kieft, 18, route 1, Grand Haven, together with Keniston, went hunting this morning in Keniston's car and, according to a deposition taken from the boys in the prosecuting attorney's office afterwards, they saw a flock of crows which they desired to shoot.

Keniston who was driving stopped the car and Fett got out on the right hand side. While he was loading the gun, the barrel was pointed over the car and while injecting the shells and closing the breech, the barrel of the gun was lowered and pointed in the direction of Keniston.

Upon examination of the gun by Sgt. Earl Sechrist of the Michigan State police in the prosecutor's office, it was discovered there was a slight defect on the safety catch. The gun while pointed toward Keniston was accidentally discharged, the load striking him in the right temple and killing him almost instantly.

Kieft said he was leaning over in the back seat of the car to pick up his gun when he heard the report and heard groans coming from Keniston who was still seated behind the steering wheel. The boys took Keniston to the hospital immediately, but he was dead upon arrival.

Fett returned home Wednesday at 2 p.m. on a furlough having enlisted July 24, 1941, in the U.S. marine corps. He is stationed at the Norfolk navy yard, Portsmouth, Va.

Keniston's body was removed to the VanZantick funeral home.

Loses Heart After Hitting Car

Here's what happened when a pheasant struck the windshield of Rudy Hotovy's car on M-21, midway between Zeeland and Hudsonville, last Thursday. An accident at 18th St. and Cleveland Ave. at 9:30 a.m. today involved a truck, driven by Justin Meiste, 23, route 6, Holland, and Donald Kline, 32, 448 Maple Ave.

Meiste who was given a summons for failing to have a chauffeur's license was driving north on Cleveland Ave. and Kline was driving east on 18th St.

Allan Drew Miles, 14, route 1, Holland, was instructed by police to report to Municipal Judge Raymond L. Smith for failing to have his car under control and failing to yield the right of way following an accident Wednesday at 4:55 p.m. at Ninth St. and College Ave. between cars driven by himself and Lena Tubergen, 37, 267 East 11th St.

Young Miles was driving south on College and she was driving east on Ninth St. Miles claimed he reached the intersection but the woman reported to police she was almost through the intersection when she saw Miles approaching at an excessive speed.

She said she had almost stopped her car when the other vehicle "clipped" hers on the front and continued 200 feet.

HEAD-ON CRASH ON M-21 BRINGS DEATH FOR TRIO

Two De Young Children, G.R. Man Are Killed in Collision

Youngsters' Parents Are Injured; Double Rites Are Conducted

The worst accident of the year for Ottawa county occurred Saturday about 7:30 p.m. on M-21, one mile west of Zeeland, when two automobiles crashed head-on on the road straightaway, resulting in the deaths of two Zeeland children and the driver of one of the cars.

Victims were Franklin, two years old, and his sister, Shirley Joyce De Young, nine, children of Mr. and Mrs. Frank De Young, route 1, Zeeland; and Ray Elmer Peel 42, 762 Scribner Ave., N.W., Grand Rapids.

Franklin was killed instantly while his sister did not die until about 1:30 p.m. Sunday in Huizinga Memorial hospital in Zeeland. Mr. Peel died about 10:50 p.m. Saturday in the hospital.

Mr. De Young, 41, and his wife, Mrs. Grace De Young, 38, are confined in the Zeeland hospital, recovering from injuries. Hospital attaches reported improvement today in their condition.

Mr. and Mrs. De Young have been examined by a Grand Rapids specialist. They are confined in Huizinga Memorial hospital.

As yet, investigating officials have not completed their investigation into the fatal crash and Coroner Gilbert Vande Water is withholding his verdict.

De Young, manager of the Grandview Hatchery at the west edge of Zeeland, suffered a skull fracture and abrasions. He entered the hospital in an unconscious condition but regained consciousness Sunday. Mrs. De Young suffered a dislocated right hip and bruises.

The accident involved automobiles driven by Peel and De Young. Peel, who had been spending considerable time in Saugatuck, was driving westward en route to Saugatuck from Grand Rapids where he had gone earlier in the afternoon.

The De Young family had come to Holland on an errand and was returning home.

The accident occurred on a straight stretch of the road and the coroner was inclined to believe that Peel was driving on the wrong side of the highway.

Neither car overturned following the crash, the coroner said, but the motors of both vehicles were torn loose and shoved back into the car bodies. Both automobiles were practically demolished, he said.

Riding in the front seat with De Young were his wife and Franklin, who was on his mother's lap. The little girl was in the back seat. Peel was alone in his car.

The coroner expressed belief that the boy had been thrown through the windshield. He died of severe head injuries, including a fracture of the frontal bone of the skull and a deep gash on the head.

The coroner said he picked up the child's body about 15 feet from where the cars collided.

Peel's death resulted from head and internal injuries. His face also was badly crushed.

Shirley Joyce died of internal injuries. Her legs were broken and her right arm was fractured. She was found by first arrivals on the scene lying on the floor of the car.

The coroner said De Young was lying slumped over the steering wheel, Mrs. De Young was thrown from the automobile.

De Young is the youngest brother of Mrs. Henry J. Beckfort, 67 West 18th St. Both parents were told Sunday of the deaths of the children after they had asked about their conditions.

Franklin was born in Zeeland Oct. 8, 1939, and his sister was born there May 30, 1932. Another daughter of Mr. and Mrs. De Young died nine years ago of pneumonia.

In addition to the parents, both children are survived by the maternal grandparents, Mr. and Mrs. Jacob Boeve, of East Holland and several uncles and aunts.

Double funeral services were held Tuesday at 1:30 p.m. from the Baron funeral home, private, and at 2 p.m. from Second Reformed church with the Rev. William Hilmert officiating. Burial was in Zeeland cemetery.

Grand Haven, Oct. 23 (Special)—Funeral services for Peel were held from the Van Zantwick funeral chapel Tuesday at 2:30 p.m., with Dr. Edwin Bouldrey, pastor of Grand Haven Methodist church, officiating. Burial was in Lake Forest cemetery.

He is survived by his mother, Mrs. Flora Peel of Grand Rapids; two daughters and two sons, Mrs. James Thompson of Holland and Doris, Paul and Robert of Saugatuck; two brothers and two sisters, Earl of Grand Rapids, Clyde of Grand Haven and Mrs. Edward Shampine and Mrs. Theron Armstrong of Grand Rapids.

KEEP BRAINS IN SADDLE DURING CRISIS: LEFFLER

Urges Tolerance as Main Factor in Support of Democracy

District Exchange Group Hears Dean of Albion; Fris Lists Aims

"In these trying times men must not let their emotions run away with their sound judgment," Emil Leffler, dean of men at Albion college, said Monday night in addressing Holland Exchange club members and their guests at a meeting in the Warm Friend tavern.

"That is my plea for democracy, the American way of living," he asserted. Pointing out that between 50 and 55 per cent of goods for public consumption will be limited by the government to meet the emergency, Dean Leffler contended that "a lot of toes will be stepped on, many will lose their heads and permit their emotions to get the best of them."

"But we must safeguard our American way of living. We will have to keep our heads to eliminate the panic and depression of past years. We need more men of the middle class, like you and I, who will be squeezed more than anybody else, to maintain control of our minds and of their sound judgment for we have less to lose and more to gain," he said in speaking on "Human Personality in the Changing Scene."

Monday night's meeting was the first of a series of 10 district meetings which are to be held throughout the state by State President Jacob Fris of Holland. Representatives from clubs at Grand Rapids and Muskegon as well as a number of visitors, including various other state officers, were present at the dinner meeting.

Past state presidents who were in attendance were Verne Earle, secretary of the Muskegon club; Dr. William Westrate of Holland; and William Little of Wyandotte. Phil Watson of Ferndale, state treasurer, and J. Henry Folkerson of the Redford-Detroit club, state board member, were introduced by Dr. Westrate. Ed Tighe, president of the Muskegon club, and Kenneth Lancaster, president of the Grand Rapids club, also were introduced.

In opening his talk, Dean Leffler discussed the changing situation of today, stating that he was more interested in the social and economical consequences of the future. He contended that these consequences have already crossed the threshold of many persons "who are beginning to look with anxiety into the future."

"We are faced with a critical situation and more trying times. It is the time to keep brains in the saddle and emotions under control for we are more likely to permit emotions to come to the surface and permit brains to take a back seat. When we strive for leadership, we like to be led."

Contending that "freedom" as a definition of "democracy" effects only one side of the problem, he said the biggest single point in favor of democracy is tolerance because in a totalitarian state there is no such thing as tolerance. "Tolerance in a democracy is the butt of all attacks of its enemies. Tolerance is our strength."

"Avoid walking in the footsteps of totalitarianism by permitting intolerance and bigotry. We all may be in agreement on principles but they may be expressed in a different fashion."

"A man may express a less sound opinion than you can, but don't damn him. That is what I mean by tolerance."

"We see things not as they are but as we are. No doubt some things would appear different if we had had a good night's rest. This is another reason why we must have tolerance," he said.

With Prof. Albert E. Lampen, president of the Holland club presiding, the program opened with invocation by the Rev. Paul E. Hinkamp of Holland. Group singing was in charge of Russel W. Forwood, secretary of the Grand Rapids club.

Gordon Girod, Hope college student, spoke briefly on the nearing community chest drive in Holland.

Entertainment was provided by Miss Joan Gogolin who presented a French cancan and a ballet dance and Miss Doris Eash who gave a tap acrobatic dance.

A trio, composed of Misses Gertrude Young, Mary Jane Vaupeul and Thelma Koolker with Mrs. W. C. Snow as accompanist sang several numbers.

Grant Iler of Grand Rapids, district governor, brought greetings from the national organization and spoke briefly on a mile-of-dimes which the Grand Rapids club conducts annually to raise funds.

State President Fris outlined the state exchange program for the coming year. He said the purpose of these district meetings was to educate members in fellowship and inspiration.

He stated that the Exchange club is an American organization and that "it must do its part 100 per cent in our defense program to keep us from our shores." Contending that "we must return to religion," he proposed that each club place an advertisement on the church page of its local newspaper, endorsing the "Go to Church movement."

Mr. Fris said aviation is one of the main objectives of the state program "for the entire world is air minded" and he expressed a hope that a model airplane con-

test could be sponsored by the Holland club.

He listed the child welfare program as the most important "because the child of today is the citizen of tomorrow." Listing several projects such as supplying glasses, financing tonsil operations, dental work and providing milk for underprivileged children, he announced that the week of Dec. 13-20 has been set aside for the service to children drive among Exchange clubs of Michigan to raise funds to carry out this work.

GRAND RAPIDS U DEFEATS DUTCH BY 16-0 MARGIN

Strong Wall of Lancers Outcharges Hope in Uneven Clash

Riverview park was invaded by the red-shirted warriors from the University of Grand Rapids Friday night, and the lads walked off with the scalps of the Hope Dutchmen, 16-0. With a stronger forward wall that consistently outcharged the Hope forwards and a broken-field runner in Dallas Braden, the Lancers showed a deceptive and versatile attack in downing the injury-riddled Dutch.

From the opening whistle to the end, the Lancers dominated the play, with the Dutch penetrating once as far as the 32-yard line. The Lancers scored in the second period via air, plunged over for another counter in the third and salted the game away with a field goal in the final stanza.

Balzell kicked off short for the Lancers and Waivo fell on the ball on the Hope 47. This opening play put the Dutch on the defensive and was a decided break in the ball game. The Dutch started things rolling by reeling off two consecutive first downs, on runs by Timmer, DeFouw and Karel, and a pass from DeFouw to Timmer. However, when a break came for Grand Rapids, when Don DeFouw fumbled the pass from center on fourth down and the ball went over to the Lancers on the Hope 45. Then in six plays, the Lancers scored. Braden was tossed for a yard loss, Lektka picked up the yard, and the Lancers took to the air. A toss from Lektka to Braden netted 16 yards and a first down on the 29. Braden drove off right tackle for 9, then lost a yard on a reverse. Lektka took the ball on a reverse, started a wide sweep of left end, stopped short and tossed a long pass diagonally across the field to big Balzell, who jogged into the end-zone for the first tally. Substitute Rozga entered the game and added the seventh point.

Following the score, Hope took to the air, with Bud Karel on the tossing end. He tossed one to Rowan for 11 yards and a first down, but the running attack was stopped by the hard-charging forwards of the Lancers, and DeFouw's punt was blocked by Averill and recovered by Partanen on the Hope 33 and the Lancers were moving again. Two line plays netted 8 yards, then Karel again stepped into the breach to intercept an aerial on his own 24 and race back to the 48-yard line of Grand Rapids. But, the Lancers retaliated when Braden took a pass off the fingers of George Slager on the Grand Rapids 45. Just before the end of the half, Eddie Nieuwsma whipped an aerial to Timmer and the Gazette raced to the Lancer 47 for a gain of 22 yards.

In the third quarter, DeFouw punted to Lektka, who made a 12-yard return to the Hope 41 and six plays later, Grand Rapids crossed the last chalk mark. Braden, driving hard, made 4 through tackle, then tossed an aerial to Partanen, who took the ball on the 27 and romped to the 10-yard line before Davis brought him down from behind. Norcross was stopped cold, but Braden circled right end for 8 yards. Braden again hit center to the one foot line and on the next play drove over right tackle for the score. Rozga missed the point and the score remained, 13-0.

Hope, in an endeavor to get back in the ball game, took to the air. But Lektka stepped in to intercept an aerial thrown by DeFouw and returned the pigskin to the 28. Snake-headed Braden crashed over right tackle for 16 yards down to the 12. Here the Hope stalwarts rose up and threw back the Lancer attack and took over on an intercepted pass in the end-zone. DeFouw kicked badly for a loss of 6 yards and Grand Rapids took over on the 20. Three plays failed so husky Balzell calmly stepped back and booted a 20 yard field goal to salt the game away. Late in the game, the Dutch marched to the 32 Lancer line, mainly on aerials thrown by Timmer and Karel, but the attack lost momentum and DeFouw was forced to punt. The game ended with Hope filling the air with desperate passes.

The Dutch line was badly outclassed by the heavier forwards on the Lancer eleven. The linebackers for the Grand Rapids eleven, Bernie Tolonen and Bill Norcross were constantly playing in the Dutch backfield. In the ball-carrying department, Dallas Braden showed speed in carrying the mail for the Lancer eleven. He was aided by the timely running of Duncan Lektka.

The only glimmer on the Hope line was shown by Bill Hakken and Len Pape who did yeoman duty in stopping the center bucks of Norcross. Bud Karel looked capable in filling the shoes of the injured Dick Higgs by running hard and showing a classy change of pace. Roy Davis again gave his all in backing up the line.

Statistics show that Hope made 5 first downs, while the Lancers were making the same amount. In the air, Grand Rapids completed 6 out of 13 passes, while the Dutch completed 6 out of 19. Grand Rapids was penalized 53 yards and the Dutch 10.

Long Delayed, Missioners Arrive Here From Africa

Browers' Passage Money Seized by Nazis Year Ago Last May

After waiting a year and a half, Mr. and Mrs. Angus J. Brower and son John, 2, have finally arrived in this country for their furlough from missionary duties in the Belgian Congo, West Central Africa.

Mr. Brower, son of Mr. and Mrs. John J. Brower of 285 East 12th St., and his family had their bags packed way back in April or May of 1940 and were awaiting money for their passage from the Belgian Congo mission which supports the work in Africa. The Browers' passage money along with almost everything else was seized by the Nazis in Brussels, Belgium, in May of 1940.

After many months of waiting and "miles" of red tape, the family finally left their station Aug. 4 for the long trip to this country. Before reaching Cape-town, South Africa, they traveled two days on bicycle accompanied by a native porter, two days on a river boat, three days on a primitive woodburning train and four days on another train which was more modern but still a far cry from the familiar kind in the United States.

At Capetown they waited a week and a half and as no American boat was available, they took passage on an Egyptian boat where they shared many unpleasant experiences. The crew was on strike because the men had been ousted from their cabins to make room for passengers and there were many evidences of violence. For two days the Browers remained on this boat with no food and very little water and then got in touch with the American consul who was instrumental in having their money refunded.

The family remained in Capetown for the American steamer U. S. President Grant which was due Aug. 25 but did not arrive until Sept. 10. Once on this boat, there was smooth sailing. There were 176 passengers on board including 20 men in the smoking room. The sailing time was nearly normal, the trip taking 23 days. Only once was a warship sighted—a British destroyer which kept guns aimed at the American boat until sure of its identity. From Capetown the boat went to Trinidad, off the shores of Venezuela, South America, and then to Staten Island where it docked Oct. 3.

The Browers are now staying with relatives in Beaverdam and hope to be able to return to Africa in a year. After Thanksgiving they will leave on a speaking tour of two or three months. Mr. Brower has served as missionary in Africa for eight years and five months. He attended Zeeland high school for one year and took a three-year course at the Moody Bible Institute before going to Africa.

Mrs. Brower, the former Emma Anderson, was born in Chicago of missionary parents and went to Africa when she was three months old. She spent her entire life in Africa with the exception of two furloughs here of a year and a half each.

Mr. Brower has three sisters here, Mrs. Chester Weener, Mrs. Mike Veele and Mrs. Joy Hunkerink. The mission station in West Central Africa works among natives who were cannibal tribes until 25 or 30 years ago. Mr. Brower says some of the natives still retain a few primitive tendencies and some of the witch doctors still pass the "poison cup" in secret. He explained that a native sometimes is forced to drink the poison cup after the witch doctor has blamed him for another death. The practice usually proves fatal and if the person survives, the people are convinced he was not guilty of the hex. However, this practice is fairly rare because the Belgian government has imposed a 25-year penalty on offenders. Mr. Brower said that some of the former cannibals have become evangelists.

In the mission village the Kikongo commercial language is used which is the trade language for about six different native languages. There are no cities in this part of Africa, Mr. Brower explained, but rather a series of villages having from 100 to 1,000 inhabitants. In the entire section there are from 300,000 to 400,000 persons.

In the Belgian mission there are eight missionaries to the station and about 30 evangelists and evangelist-teachers who serve outstations and work in the different villages. An American Baptist station lies about 300 miles south. Since auto roads have been opened in the last three years, Mr. Brower states that the African people are making great strides toward modern civilization, although they are many, many years behind America. Small light plants are being constructed and a few refrigerators are making their appearance. Most of the traveling by Mr. Brower was done on bicycle and he estimates he pedaled 6,000 miles a year.

The Brower home in Africa is made of sun dried bricks with a thatched roof of palm leaves. Gasoline lanterns are used and the water supply, taken from streams, must always be boiled. For food, they have rice, bananas, pineapple, papaya (melon), oranges and other citrus fruits in abundance.

As the settlement is on the plains, Mr. Brower explained that the land is very poor and it is very difficult to raise any vegetables. Vegetable beds must be built on tables and as the insects are too plentiful, raising vegetables is a losing fight from the start. Food in tin cans from America is available although very expensive. The milk supply is nil as there are no cattle and a disease killed off all the goats. Therefore, powdered milk is used.

The African settlement is five degrees from the equator and maintains an even temperature from 60 to 90 degrees. The nights are always cool, Mr. Brower says, but from 9 a.m. to 4 p.m. cork helmets or double felt hats must be worn. Quinine must be taken daily to combat the malaria mosquito. The tsetse fly (sleeping sickness) and the hook worm cause other common ailments. Mr. Brower explained that he and his wife take quinine in capsule form but young John is a brave boy and takes it straight.

Hunting furnishes most of the sport and recreation for the men besides providing food supplies. Hunting is plentiful and everything from guinea fowl to buffalo is taken. There also are many elephants and hippos but they are protected by the government. Croquet is about the only other form of amusement. Mr. Brower supervises the work of evangelists and teacher-evangelists in the 30 or 40 outstations and also directs the evangelistic work in the mission village. In the 12 years since the mission was established, there have been 1,100 converts. About 1,200 attended the 30 or 40 schools in the villages. A large school is conducted in connection with the mission proper having about 500 or 600 students. Among the 200 girls are many of the ages 10 and 12 who attend school to escape being married to older men. Polygamy is still practiced among the natives. Between 800 to 1,500 attend church at the mission on Sunday.

The Browers were married in Africa four years ago. The marriage ceremony, conducted by a French government official, took two hours. The Frenchman could understand no English whatever and the couple knew very little French. They had difficulty in obtaining a witness, Mrs. Brower's brother being too young. At length they called in a white cyclist from the road who agreed to witness the rites even though he was dirty and sported a beard of several days' growth.

Mr. Brower is supported by the Bible Witness hall of Zeeland and he will speak there Sunday morning and evening.

The referendum will be conducted by the surplus marketing administration of the department of agriculture with the assistance of the state and county tripartite committees, according to Glenn E. Taylor, chairman of the Ottawa county tripartite committee.

Similar referendums will be held in Wisconsin, Minnesota and North Dakota.

Tentatively approved by the secretary of agriculture, following hearings in four states, the marketing program would regulate grades and sizes of Irish potatoes shipped in interstate commerce and provide for federal or federal-state inspection.

FILE TWO CHARGES AGAINST MOTORIST

Grand Haven, Oct. 23 (Special)—LeRoy Wooley, 19, of Hammond, Ind., pleaded guilty Monday on arraignment before Justice George V. Hoffer on charges of reckless driving and failing to have an operator's license.

He was assessed a \$25 fine and costs of \$4.25 on the first charge and a \$2 fine and costs of \$3.35 on the second charge. Wooley paid the \$34.60.

He was arrested by State Troopers Kent Lumbard and John Antonelli after his car had been involved in a three-car accident on US-31, two miles south of Grand Haven about 8:15 a.m. Sunday.

Dramatic Star Presents Century Club Program

Century club members and their guests were entertained Monday night in the home of Mr. and Mrs. J. E. Telling on the Park road by Gay MacLaren of Chicago, charming veteran of the days of Chautauqua, who turned back the "ages" and gave her interested listeners a few samples from the "speaking" pieces" days.

In her "all American" program, Miss MacLaren declared that she was proud to have had a part in one of the most American of all American institutions, the great Chautauqua movement, which every summer attracted 40 million persons to the tent tops where a variety of entertainment was offered. Her contributions to these programs were the so-called "one girl shows," a few examples of which were presented to her local audience.

Demonstrating what she termed as the "olocutionary horrors" of former days, the entertainer gave a reading of the melodramatic "Curfew Shall Not Ring Tonight," with appropriate gestures, which was highly enjoyed by the club. She closed her program with excerpts from "The Music Master."

As a concluding feature of the evening's entertainment, a vocal trio, composed of the Misses Gertrude Young, Mary Jane Vaupell and Thelma Kooker, accompanied by Mrs. W. Curtis Snow of Hope college, sang two delightful selections. Their numbers were "Prelude" from a "Cycle of Life" by Landon Ronald, and "In My Garden" by Firestone.

Henry Winter, president of the club, presided. The social hour was in charge of Mr. and Mrs. O. S. Cross, Dr. and Mrs. Bruce M. Raymond and Mrs. George E. Kollen. The meeting on Nov. 3 will be held in Hope church parlors, with the program in charge of the Rev. Paul E. Hinkamp.

The bride, the former Fernetta De Frell, wore white satin with a veil and carried a white bouquet. She was attended by her sister, Miss Cornelia De Frell, who wore pink. Harold Langejans attended as best man.

Vows were spoken beneath an arch from which was suspended a wedding bell which was used at the wedding of the bridegroom's

parents. Evergreens and flowers were included in the decorations. Alvin De Vries sang appropriate selections, accompanied by Jere Hulst who also played the wedding march.

About 70 were present. Mr. and Mrs. Hulst are making their home at 243 West 11th St. The bridegroom is employed by General Motors Corp. in Grand Rapids.

MANY WILL AID IN CHEST DRIVE

Two Hundred and Fifty in Group That Is Headed by Steketee

A total of 250 volunteer citizens under General Campaign Chairman C. Neal Steketee will solicit about 5,000 potential contributors when Holland's Community chest campaign opens Oct. 27 and continues through Oct. 31.

Local concerns and individuals will be asked to contribute a total of \$16,000 to enable ten charity and character building organizations to continue their work during 1942.

"Some communities retain professional guidance for their campaign but no soldier in Holland's army receives a cent of pay," Mr. Steketee said. "They take time from their business, spend their money in getting around, contribute generously to the chest and take up the Good Samaritan role because there is a human need to be met."

"Most all of these volunteers serve on the Community chest campaign from year to year. Their service is a recognition of the need and they go forth confident that Holland will respond generously."

"Holland can again show its appreciation of their efforts, in the coming once-for-all campaign, and at the same time meet its civic responsibility by oversubscribing the goal which has been cherished by the benefitting organizations for the past five years."

REFUNDS MADE ON TOLL RATES

Fred R. Lough, local manager for the Michigan Bell Telephone Co., announced today that refunds totaling \$5,974 have been made to long distance customers in Holland in connection with the April rate reduction which brought intrastate toll charges down to interstate levels.

Lough said the refunds have been made to 1,907 customers in this exchange. A recent check by the company showed that 45 percent of its customers are entitled to refunds.

Except for "final accounts" involving discontinuance of service, change of numbers, etc., and possibly further pay-station claims, refunds have been completed in this exchange. Claim slips were provided customers making pay station calls to identify the calling party and many of them have been presented for refunds. On all other calls, the company has complete records.

The job of refunding involves the checking of approximately 85,000,000 records of individual calls. The company estimates that a total of \$1,500,000 will be refunded Michigan users.

The refunds apply to calls between certain Michigan points during the period, Aug. 1, 1938 to April 25, 1941, inclusive.

Refunds made since July 1 bear interest at the rate of 1/2 of 1 percent a month. Besides the refunds, the company estimates the April rate reduction is resulting in savings of about \$700,000 a year to Michigan users, based upon current usage of the long distance service. Another intrastate rate reduction which the company put into effect September 16 will result in further savings of about \$230,000 a year.

VANDENBERG WANTS TO KNOW

How difficult it is to get at the
truth in the international situa-
tion is illustrated by the dispute
over England's food reserves. We
here in America, where informa-
tion continues to enjoy some free-
dom for circulation, are inclined to
be impatient with the Russians
for withholding the facts on the
campaign against Moscow. It is al-
most as difficult to get simple
facts from England, the attitude
of Russia becomes easier to under-
stand. All are pretty much in the
same boat; truth is buried in a
haystack of guesses and deliberate
fabrications.

Senator Vandenberg called on
Secretary of Agriculture Claude
R. Wickard to explain what he
called "apparent contradictions"
in the reports of England's food
reserves. Wickard had announced
that England was on "short rat-
ions" and would need \$1,000,000
in food in the next five months
—the implication being of course
that Americans would some-
how dig up the billion.

Even that might be all right,
were it not for the report from
London quoting a British official
to the effect that Great Britain
has greater wheat stocks than
ever before in history. Vandenberg
wanted to know who was
right and who was wrong, who
was telling the truth and who was
lying. And it may be added that
the American people want to
know; moreover, they have a right
to know, since they are the ones
who are to pay the bill.

Since Senator Vandenberg ad-
dressed his polite but searching
question to the secretary of agri-
culture another dispatch has come
from London. In it the food min-
istry announced that stocks of
wheat and sugar have "reached a
state where it is no longer neces-
sary to build up any more re-
serves."

There you have the direct con-
tradiction: the secretary of agri-
culture calls for a billion Ameri-
can dollars to supply England with
food the next five months; the
British food ministry an-
nounces proudly that in the case of
wheat and sugar at least, it is
no longer necessary to build up
reserves.

There is something fishy about
this, and Senator Vandenberg is
right in demanding an explanation.
Nothing is more certain than that
the American people do not want
to let the English starve; they will
make almost any sacrifice to
supply the people of Britain with the
food they will need during the
coming months of trial. But they
want the facts, and they want
exact facts. Apparently facts are
not to be had. The Senator from
Michigan is trying to get them. So
are the American people.

THE CHURCH INVITES YOU

No disciple of Christ can stand
aloof from Christ's church without
violating his duty. It is not
enough to declare one's sympathy
with its objects. A profession of
sympathy, without cooperation,
when cooperation is possible, be-
lieves itself. For a Christian to say
that he believes in the church
while he refuses to identify him-
self with it is self-contradictory.
Moreover, the church has positive
claims on Christians, for it is the
most effective guardian of society.
The earliest colonization of our
land teaches us, in direct harmony
with the history of Israel itself,
that "righteousness exalteth a na-
tion. Nor is it difficult to see how,
in the more complex social rela-
tions, the virtues of ordinary life
are fostered and maintained by it.
Why not accept the invitation
and go to church next Sunday?

Civic Responsibility Regarding
Beverage Alcohol
Deuteronomy 5:32, 33; 11:26-28;
Isaiah 28:1-6; Habakkuk 2:12

By Henry Geerlings

It is quite difficult for us Amer-
icans to realize the background
of thought and action familiar to
Hebrews who lived centuries be-
fore Christ. Our system of law
making bodies is one which may
have little or no religious signifi-
cance. Our churches are organized
apart from the civil government.
With us church and state are sepa-
rate, with spheres of influence
only occasionally overlapping.
Christians do not all agree that
this is the best arrangement but
the plan is at least workable.

In the first five books of the Old
Testament, designated by the col-
lective Hebrew word law, we find
much more than a body of legisla-
tion, but in them we can find
nothing that is divorced from reli-
gion. The Ten Commandments,
and the many laws to regulate
various phases of life, are religious
laws, and the stories that accom-
pany them, while telling of all
kinds of human experience, all
have an underlying religious pur-
pose. This is the outstanding fact
of Hebrew life, that its political
and civil life had a religious cen-
ter. Religious and political life
were not separate. The Hebrews
had a covenant with God, and their
laws, even those dealing with what
we regard as secular things, were
related to God. Intemperance was
a matter for religious concern, not
merely for police action.

Glance quickly through the book
of Leviticus, and note the variety
of matters touched upon by the
laws—religious ritual, disease and
health, safety, relations between
men and women, agriculture, sur-
veying of fields, treatment of the
poor. God was interested in every-
thing and in all the relations be-
tween men. It is a far cry from
our ways of thinking today when
those who make and enforce our
laws seldom think of them beyond
their special purpose, and some-
times even resist the suggestion
that the will of God is a matter
of concern.

The word "civic" includes all
public bodies, the town or city, the
county, the state, the nation. We
ought to stress the need of sound
and clean public opinion in our
community, and the part all good
citizens can play in keeping the
atmosphere of their group from
being favorable to alcohol. We
ought also to help prepare future
members of public bodies for a
useful career. Many of our young
people will some day be aldermen,
mayors, members of state legisla-
tures, members of congress, news-
paper proprietors. If they can be
taught to use their offices for
good, to refuse to cater for the
sake of income to undesirable in-
terests, and to be unshaken by
the side of Christian standards
when in office, the civic life of the
United States will greatly benefit.

The great migration of the
Chinese people, complete with gov-
ernment factories, and universities,
from the coastal regions of China
to its rugged fastnesses in west-
ern China, is one of the great re-
serves of history. Four thousand
years ago the forefathers of the
present Jewish race, the Hebrews,
spent over forty years in trekking
across the desert land, following
their miraculous escape from
Egypt, in training for the day of
their attack upon the promised
land of Canaan.

Before the actual assault began,
Moses, under God's guidance, is-
sued a proclamation to be capable
of meeting the brave inhabitants
of Canaan, it was necessary that the
Hebrews should learn the arts of
war, of attack and defense, but it
was even more urgent that they
should learn how to obey, how to
cooperate, how to sacrifice their
own individual desires for the good
of the whole people. These lessons
took years to learn and it was
the men and women who were
boys and girls in the early days of
the desert life who actually led the
successful invasion of Canaan.

Perhaps these boys and girls
never realized how God was train-
ing them, day by day, for the larger
responsibilities that were to be
theirs. So, it is true today that
sometimes boys and girls fail to
realize that God will train them
through His Spirit so that, as the
years go by, they may be able to
play a constantly more important
part in setting the standards of
their community.

SELECTIVE SERVICE IS PREPARING LIST

The local selective service board
has received information from
national headquarters in Wash-
ington, D. C. that the federal govern-
ment is engaged in preparing rosters
of scientific and specialized per-
sonnel for the purpose of providing
a comprehensive list of highly
trained Americans possessing
special ability in their respective
fields.

Categories listed in this person-
nel list are administration and
management, agricultural and bi-
ological sciences, engineering and
its related fields, humanitarian
medical sciences and related fields,

ded to this personnel list may write
to national selective service quar-
ters for a questionnaire but this is
not to be considered an applica-
tion for a job. The purpose of the
roster is to conserve and most ef-
fectively use the available scientifi-
cally trained personnel in connec-
tion with the national defense pro-
gram.

Girls Will Form New Club Here

At a meeting of all senior High
school girls in Holland who are
or have been Camp Fire girls, in
the home of Mrs. Phillips Brooks
last Wednesday, plans were dis-
cussed for the organization of a
new Horizon club for girls of sen-
ior high age. All over the country
these Horizon clubs are being
formed by girls who have been
Camp Fire girls in their earlier
school years, the outgrowth of a
spontaneous desire to continue in
Camp Fire with a program espe-
cially adapted to the girls' more
mature interests in personality
development and service to others.

Mrs. Ruth De Windt, of Grand
Rapids, head of Camp Fire activi-
ties in western Michigan, was
present to explain the objectives
and organization of these clubs.
Mrs. Lloyd Reed, local Camp Fire
director, Mrs. E. J. Yeomans,
Miss Lucille Kardux, Mrs. Peter
Van Dornen, Jr., and Mrs.
Brooks, who have been interested
in such an organization in Hol-
land, also were at the meeting
to offer their cooperation in the
project.

It was explained that girls who
have not previously been in Camp
Fire and those who have been in
Camp Fire but never have at-
tained the rank of woodgatherer,
would serve as pledges for six
weeks during which time they
would learn about the Camp Fire
program, its objectives and activi-
ties.

The Horizon club is a new or-
ganization. Its three main objec-
tives are to gain friends, find
personalities and to serve others.
Its program will include dances,
meetings based on what to wear
and that streamlining process
called "being smooth," how to
make the most of one's looks, the
puzzling whys and wherefores of
etiquette, and what makes one
liked by both girls and boys.
There will be hikes, camping trips
and experiences in sports of all
kinds.

OVER MILLION TREES PLACED

Grand Haven, Oct. 23 (Special)—In its summary of accomplishments for the fiscal year from Oct. 1, 1940, through Sept. 30, 1941, the west Ottawa soil conservation district reported to the board of supervisors last week that 1,878,317 trees had been planted in Ottawa county.

This was as follows: Trees furnished free by Soil conservation services, 1,174,587; trees furnished free by district nursery, 3,409; trees purchased from district nursery, 356,050; trees purchased from other nurseries, 344,280.

The district reported that 872,880 trees were planted by the CCC and 1,005,437 trees planted by co-operators. Total number of trees planted since the district was organized now reach 3,768,672.

Acres planted last year amounted to 1,565 for a grand total of 3,090 acres. Other activities of the district follow:

Number of shrubs planted, 83,894; total number of shrubs planted, 235,909; acres of blow sand stabilized, 374; total acres of sand blow stabilized, 1,074; miles of windbreaks planted since district organized, 80; number of farmer tree seed beds planted this year, 39; total number of farm seed beds, 120; yards of marl purchased, 3,685; total yards of marl purchased, 8,227; total yards of marl dug since district organized, 12,000; number of farms planned, 82; total farms planned, 391; number of requests on file, 130; acres in farms planned, 6,350.7; total acres planned, 30,657.

The following work was accomplished by the CCC: Built 1,168 rods of fence, planted 872,880 trees, stabilized 374 acres of blow sand, improved 36 acres of woodland for demonstration purposes, loaded 1,800 yards of marl in cooperation with district trucker, fought grass and woodland fires on 18 occasions and assisted on three experimental plots.

The district sponsored the Dewey Hill tree planting during which over 50,000 trees were planted. The trees are doing better than expected considering the large number of inexperienced planters taking part and the unusually dry summer.

The district now has 2,000,000 one-year-old trees, 2,000,000 two-year-old trees and 1,000,000 three-year-old transplants in its nursery. These transplants will be planted on co-operators' farms during this fall and spring of 1942.

Tax reverted land, totaling 1,553

acres have been leased by the district from the county and is being improved and areas in need of reforestation are being planted in trees. In addition, the district has signed agreements to reforest an additional 134 acres owned by the county and 185 acres owned by Spring Lake township.

FINES PAID BY FOUR HUNTERS

Arraignments of the 12 persons who were arrested last Oct. 15 for hunting violations in Ottawa county continued today in various courts.

Richard L. Bush, 23, of Kalamazoo appeared before Municipal Judge Raymond L. Smith Thursday, October 16, on a charge of transporting a loaded gun in his car. Upon his plea of guilty he was assessed a fine of \$25 and costs of \$6.85. He arranged to pay the \$31.85.

Henry Reimersma, 27, Grand Rapids, and James Groeneveld, 24, of Grandville, both charged with having in their possession three cock pheasants on the opening day of the season, one more than permitted by law, pleaded guilty last Thursday night before Justice Hoffer and each was assessed a fine of \$25 and costs of \$6.85 or 30 days in jail. Both paid.

DRIVER COVERED BY GLASS AS PHEASANT STRIKES WINDSHIELD

Add to the hunting stories that marked the opening of the 1941 season the one of Rudy Hotovy of Grand Rapids.

Hotovy, en route from Grand Rapids to Benton Harbor, was driving along M-21, midway between Hudsonville and Zeeland, on last Thursday when a cock pheasant suddenly crashed through the windshield of his car. The bird was killed and an oddity of the incident was that the heart of the bird was cut out by the broken glass and left lying on the car seat while the pheasant itself fell to the floor of the car.

Hotovy brought the dead bird and his damaged car to police headquarters where it was viewed by numerous persons. While telling of his experience, he continued to shake the broken glass from his clothes.

The hole left in the windshield was of considerable diameter. Hotovy said he would be afraid to try and cook the bird because it would likely be filled with broken glass.

Local OES Chapter Is Honored at Convention

A large delegation from Holland has been attending sessions of the 75th Diamond Jubilee of Grand chapter, O. E. S., which was held in Grand Rapids last week with 1,500 registered delegates and over 3,000 visiting stars in attendance.

The local Star of Bethlehem chapter was signally honored by the achievement committee of the Grand chapter. With other chapters in the state, the local chapter received a trophy for the most advancement in its work both in chapter and community projects. Mrs. Dorothy Squires, general achievement committee chairman, presented Mrs. Alberta Simpson, Worthy Matron, with a beautiful Eastern Star flag which she graciously accepted for her chapter.

The flag is of white silk, three by five feet, with a large five-pointed star in the center, each point embroidered with its appropriate emblem. The entire flag is edged with gold fringe and gold cord mounted in a silver tipped flag pole. The gift will be cherished as a reward for earnest effort and a souvenir of the 75th anniversary.

The first Eastern Star chapter was organized in Coldwater, Mich., in 1866, as a woman's auxiliary to the Masonic F. and A.M., for social purposes. Today there are 457 chapters in Michigan with 73,000 members. The first Grand chapter was organized here in 1877 and later a General Grand chapter of all the states with headquarters in Washington, D.C. was established. Star of Bethlehem was the fortieth chapter, organized in October, 1886.

From being a social asset to the Masons, the O.E.S. has developed a variety of activities, including philanthropic work, Red Cross, maintenance of a children's home in Alma and a home for the aged in Adrian, educational loans to worthwhile students and similar projects.

An entertaining pageant arranged by Mr. and Mrs. William Lavean of Grand Rapids depicted the history of the past 75 years, dividing the time into ten year periods. A large frame was used to illustrate the passage of time. The cover was white with a huge silver star in the center and silver letters, O.E.S. over the star.

As the cover was opened, characters representing that particular time and mode of dress stepped out and the highlights of the period were given, with appropriate music sung by Mrs. Thelma Le Roy with pipe organ accompaniment. The two final characters were Grand Worthy Matron Mrs. Eloise E. Rowley of Battle Creek and Grand Worthy Patron, James W. Grills of Flint.

At the close of the pageant a reception was held for the guests and grand officers.

Delegates from the local Star

of Bethlehem chapter are Mrs. Simpson and Mrs. Clara Asseheim. Miss Clara McCellan is a member of the Grand Choir.

Program Celebrates 25th Anniversary of Church

A large crowd gathered in Sixth Reformed church Friday evening for a program celebrating the 25th anniversary of the founding of the church. The program opened with a song service led by John Vandersluis, who had served as choir director for many years, with Mrs. Sam Plagenhoef at the organ and Henry Slager at the piano.

The history of the church was traced with William Strong giving the early history and the Rev. John H. Bruggers of Coopersville and the Rev. John Vanderbeek, present pastor, relating experiences during their respective pastorates.

The early history dated back to 1915, Mr. Strong said, when the Hope college YMCA conducted a Sunday school in the town hall which at that time was located on Eighth St. just east of the city. Later the Holland classic, largely through the efforts of the Rev. P. P. Cheff and other members of the extension committee, decided to organize a church and a sectional structure was erected on the present property.

In the early years the Rev. John J. Van Strien and the Rev. Gradus Vander Linden served as student-preachers. The Rev. J. P. De Jong of Zeeland and the Rev. Fred De Jong also assisted in the work. Twenty-two years ago Rev. Bruggers became pastor and about 12 years ago the present pastor took over the duties. During Rev. Bruggers' pastorate the church was completed and the parsonage built and a short time after Rev. Vanderbeek arrived the church became self-supporting.

SUNDAY DINNER Suggestions

EVER hear of the man with a reminiscent palate? He's the man who gets a wistful look as his eye, and sighs for the good old days of mother's pie and grandmother's buckwheat cakes.

His wife may try to say that memory lends enchantment, but if she's wise, she'll dig up old recipes and feed him the food for which he longs.

Actually, your task is easier than grandmother's. You can have greater variety and better balanced meals today at far less money. Take a look at the vegetable stalls this week, abounding with beef, carrots, turnips, radishes, scallions, celery, peppers, eggplant, cucumbers, tomatoes—all at low prices. And fruit specials, including apples, grapes, cranberries, all tempt one into buying and cooking.

Good news this week on meats is that prices are unchanged, with fractional drops on lamb. The roasting chicken—a special of the week—might be a wise selection for the cook who wants chicken and dressing "like mother made."

Based on the best buys of the week, Marion Rouse Budd, of the Kitchen, has prepared the following menus at different price levels for your next Sunday dinner. They should help build up your reputation as a cook:

Low Cost Dinner
Pot Roast with Potato Dumplings,
Onions and Carrots
Stewed Tomatoes
Bread and Butter
Baked Cinnamon Apples and Milk
Tea or Coffee

Medium Cost Dinner
Cured Chicken with Stewed Rice
Baked Stuffed Eggplant
Mixed Vegetable Salad
Bread and Butter
Date and Nut Pudding with
Custard Sauce
Tea or Coffee

Very Special Dinner
Apple, Orange and Pineapple
Fruit Cup
Crown Roast of Pork
Broiled Sweet Potatoes
Cauliflower with Cheese Sauce
Watercress and Tomato Salad
Rolls and Butter
Coffee Jelly with Whipped Cream
Tea or Coffee

COUNTY HEALTH CONDITIONS FOR YEAR REVEALED

Increase Shown in Births and Deaths in Report to Supervisors

Grand Haven, Oct. 23 (Special)—In its 11th annual report filed last week with the Ottawa county board of supervisors, now in session here, the Ottawa county health department reported that births totaled 1,257 and deaths totaled 646 in Ottawa county for the fiscal year ending last Sept. 1.

This is an increase of 77 in births and 59 in deaths over last year's figures of 1,180 births and 587 deaths, the report showed. The past year's birth rate was 21 per thousand population while the death rate was 10.8 per thousand population.

Of the total number of births, 651 were male and 592 were female. There were 23 stillbirths. Births by months follow:

September, 94; October, 111; November, 99; December, 97; January, 103; February, 88; March, 109; April, 116; May, 105; June, 99; July, 122, and August, 100.

The report shows that so far in 1941 there have been 369 deaths and seven stillbirths. Deaths by age groups follow:

Up to one year, 26; one to four years, three; five to nine years, three; 10 to 19 years, six; 20 to 29 years, eight; 30 to 39 years, 10; 40 to 49 years, 17; 50 to 59 years, 46; 60 to 69 years, 61; 70 to 79 years, 97; 80 to 89 years, 74; 90 to 99 years, seven; 100 years, one.

Violent and accidental deaths in Ottawa county totaled 38. Heart disease still leads as the major cause of death, numbering 60, with cancer in second place with 45 victims. Thirty persons died from diseases of the coronary arteries; 25 from diseases of nervous system and other sense organs; 22 from diseases of the respiratory system, 14 from diabetes mellitus; 12 from arteriosclerosis; 10 from influenza and seven from tuberculosis.

"Except for an unusually high incidence of measles which makes its appearance about every two or three years, there has been no unusual incidence of contagious diseases this year. There has been no diphtheria and a very low incidence of smallpox which, of course, should be eliminated. There have been no reports of rabies this year and conditions warrant the official enforcement of legal restrictions of dogs to prevent another outbreak," the report reads.

A total of 2,575 cases was admitted to service and 2,095 of these were admitted to nursing service. Number of communicable disease cases follow: Scarlet fever, 350; smallpox, 30; measles, 2,138; whooping cough, 252; chickenpox, 377; poliomyelitis, 97; rabies and suspected rabies contacts, 10; diphtheria, 10; pneumonia, two; skin conditions, eight; mumps, 50; German measles, 34.

Concerning activities to curb tuberculosis, there were 1,207 individuals admitted to medical service and 146 admitted to nursing service; 1,148 given examinations; 99 clinic visits; 11 clinic sessions; 299 field nursing visits; 27 office nursing visits; nine admissions to sanatorium; 44 tuberculin tests (excluding Holland city); 91 known active living cases; 19 cases in sanatorium at present; 10 active cases at home, 13 arrested cases.

The department discovered several new cases of tuberculosis during a recent x-ray examination of the Michigan Tuberculosis association and the state health department.

"There is no apparent decrease in the number of cases of tuberculosis. With the increased effort and increased diagnostic facilities to find early cases, increases in the number of known cases may be expected, however, there is no increase in the number of deaths."

Regarding venereal diseases, the report says, "With the large number of blood examinations done at present because of the selective service and the taking of blood in the pre-marital and pre-natal medical examination, more cases of syphilis are discovered. Between 1 1/2 and 2 per cent of blood examined show evidence of syphilis. This is the most accurate picture of the prevalence of syphilis that has been given."

"The health department is becoming more and more involved in the problem of venereal disease control. We are working in cooperation with the selective service in following up all reports of venereal disease discovered in selective service examinations and supplying literature for distribution to the selectees."

"Gonorrhea presents a more difficult problem to the health department than does syphilis and the problem of locating sources of infection is difficult. It does not present a serious problem locally in arranging for treatment of indigents."

The department reported 41 cases of syphilis and 29 cases of gonorrhea had been reported in the past year.

The report revealed that 49.8 per cent of the babies born in Ottawa county are delivered in hospitals.

One huge industrial concern in the U.S. makes a daily purchase of 150,000 bushels of corn.

One out of every three children who have reached the age of 5 are attending kindergarten classes this year.

Red Cross Plans First Aid Courses in Ottawa

Under the direction of County Chairman M.P. Russell, the Ottawa County Red Cross chapter is arranging a series of first aid meetings for the approaching months throughout the county. It was revealed here by Mrs. J. E. Holmes, executive secretary of the county chapter.

Mr. Russell has mailed letters to all qualified instructors to ascertain what teaching they can assume for the winter months. All teachers in these first aid classes are volunteers, Mrs. Holmes said.

She reported there are 10 authorized instructors in Ottawa county and the number of certificates awarded during the past year as follows: Juniors, 32; standard, 89; advanced, 16; instructors, 29.

Classes are being arranged for Zeeland, Holland, Grand Haven, Coopersville, Spring Lake and possibly at Hudsonville if sufficient interest is shown in first aid.

The Red Cross feels that first aid is of prime importance in the factories because of the increased employment due to the national defense program.

A class in first aid was held sometime ago at the local plant of the H. J. Heinz Co. by two of the company's instructors, David Prybyl and R. A. Howlett, and 13 persons were awarded certificates.

Home guard troops at Grand Haven are receiving instructions in first aid and it is now compulsory training in CCC camps, Mrs. Holmes said.

There are two Ottawa county instructors in first aid, Lloyd Brown and Sheldon Crook of Zeeland, who are now in the U. S. army. Brown taught first aid in Holland last year.

Persons interested in attending the approaching first aid classes should file their inquiries with Chairman Russell whose office is in the city hall.

Hundreds Bid Farewell to Local Group of Selectees

Seventeen Leave Holland for Their Induction at Kalamazoo

Hundreds of well-wishers gathered in and around the selective service headquarters in the Temple building last Thursday night to bid farewell to the 17 young men who left for induction into the army. Vaudie Vandenberg, chairman of the board, presided and Leon N. Moody, board member, called the roll.

Charles Kirchen was officially designated as leader of the boys with Lester De Ridder as assistant. The group left by special bus for Kalamazoo.

In presenting a brief farewell message, the Rev. W. G. Flowerday, pastor of First Methodist church, said the local group was representative of the finest generation of manhood America has yet produced. He commented briefly on the "feeling of heart" experienced by the boys, their mothers and families and last, but not least, the sweethearts.

Rev. Flowerday said the greatest thrill he ever had was when he was sworn in by a small-town judge as a citizen of the United States. He added that to be a citizen of the United States is the highest honor placed on any person. He urged the young men to uphold this honor of being an American wherever they go or whatever they do.

He commented on his own years in the service and said after seven years in college and seminary he considered the army a rich and wonderful experience, a great university of training. He said the boys will improve physically and behind them at home will be a great group which will be thinking of them, praying and writing.

"Service under the flag is the highest honor placed upon you," Rev. Flowerday concluded, "and in this lies the safety of our land and democracy."

George Schulling, president of the local Gideon camp, spoke briefly and presented each selectee with a testament. In his talk, Mr. Schulling quoted an old coach of Central high school, Grand Rapids, who said, "The greatest game of all is the game of life and you can't play it unless you know the rules. The Bible is the book of rules." Chris Reidsma, chaplain of the Gideon camp, led in prayer.

Only 17 of a quota of 19 selectees left Thursday night. The local board said the deficit will be made up in the November quota.

Four of the 17 draftees who left here Thursday night for the Kalamazoo induction center were rejected Friday and a fifth selectee was given a two-week deferment, according to information received by the local selective service board.

NEW CREATIVE ORDER IS SEEN

Wichers in Talk to Men's Society Cites Goals to Be Reached

In an address on "Out of the Night" delivered Monday night before the Men's Society of Third Reformed church, Dr. Wynand Wichers, president of Hope college, said that "this is not the first night in which world civilization has been affected but from this night some creative order will come."

He reviewed history from the fall of Egypt to the present time and named new orders which have resulted.

To accomplish a new "creative order," Dr. Wichers stated, there must be an absolute defeat of Hitler's new order which is only an old order characterized by complete regimentation, military imperialism, political absolutism and an attempt to organize a world revolution.

Free trade also must be established, he said, in which all nations will have equal access to the natural resources and raw materials of the world.

There also must be a new order on the American continent and a consolidation of countries' interest in this hemisphere. A new colonial order must result in which the two forms of imperialism must be abolished, he said.

America also must build her own democratic life on firmer foundations, he said, by providing spiritual conception of human society through sanctity of human life; by realizing that property belongs to us in trust and in stewardship; by realizing that all people everywhere are our neighbors and "we have an obligation to them," and that no man has the right to rule over anyone else for powers of authority are delegated.

The invocation was given by Dr. John Hesselink and Dick Oosting, society secretary, presided. A dinner preceded the program. The Rev. W. J. Van Kersen pronounced the benediction.

BIG REDS SHOW POWER AS THEY DOWN H.H.S., 26-2

Gains Twelve First Downs to Four for Dutch in Uneven Clash

Showing a terrific amount of power and deception, the Muskegon powerhouse rolled over the ground three times and traveled through the air once to vanquish a fighting Holland eleven, 26-2, Saturday afternoon in Riverview park. In the first eight minutes, the Big Red steamroller pushed across two tallies and dominated play throughout the contest except when Kenny Rotman tossed passes to Don Leeuw that penetrated the Muskegon territory. This combination had the Big Red pass defense on the alert all afternoon.

In the statistics department, Muskegon showed its superiority by rolling up 12 first downs to four for the Dutch and completing one pass out of one attempt, while the Dutch filled the air with 30 passes, completing nine. The Big Reds fumbled three times and Holland recovered two of the misplays. Holland had four aerials intercepted by the Muskies.

The Reds scored twice in the initial period, once in the second, and added the final tally in the third stanza. The Dutch, with seconds remaining, crashed through to block a Big Red punt and avert a shutout with a safety.

The Muskegon eleven laid its hands on the ball on the Dutch 37 and started to roll. Behind a mass of blockers, Lindbach swept over the left side of the Dutch forward wall on a deceptive reverse for 24 yards to the Holland 9. This threat was stopped when Maatman recovered Jones' fumble on the Dutch 8. J. J. Jones took Rotman's punt to the 30 and on the first play smashed over left tackle, broke into the clear, and romped 30 yards to score. Carlson converted and after 4 minutes, Muskegon led, 7-0.

Three minutes later, Rotman kicked out on his own 44. Again, on the first play, Jones tossed the only pass of the afternoon to Carlson, who grabbed the pigskin on the 30, and raced for the second score. The extra point was added again by Carlson. Following the kick-off, the Dutch started from their own 40. Rotman tossed a 20-yard pass to Lloyd Heneveld

and the receiver was downed on the 30. Wheaton crashed to the 26, but the threat ended when Captain Fleckenstein stepped in to intercept Rotman's pass on his own 23.

This was the incentive for the Muskies to start rolling goalward and in six plays the last chalk-mark was crossed. Torgeson, driving reserve fullback, hit center for 3, then followed up by smashing the same spot for 13 yards to the 39. Fitzgerald hit tackle for 4 and, on the same play, came over right tackle for 5 yards, later-raised to Torgeson on the 48 and the fleet back scampered down to the Dutch 10, where Vern Kraai brought him down. This play was good for 47 yards. In two plays, Fitzgerald hit pay dirt and the attempted conversion was blocked by Steur.

With Rotman tossing passes to Leeuw, the Dutch rolled 13 yards to midfield, from where Rotman kicked out on the 4. The Big Red machine began to roll again, and J. J. Jones ripped off 12 yards to the midfield strife as the half ended.

During the first half, Muskegon controlled the ball most of the time and employed a devastating ground attack to bury the Dutch under a three-touchdown margin. Holland's two first downs in the first half were registered on aerials from Rotman to Leeuw.

As the second half started, Torgeson fumbled and Koop recovered for the Dutch on the Big Red 47. Three incomplete passes forced Rotman to punt and he booted the ball out on the 6. Then in 12 plays, the Reds swept on to the score.

Fitzgerald hit center for 4, Jones skirted left end for 16 and the Fitzgerald to Torgeson lateral combination netted 21 yards to the 47. Fifteen yards were reeled off by Fitzgerald on a reserve, Torgeson gained 7 on two tries at the center and J. J. Jones, colored speedster, made a first down on the Holland 20. Torgeson and Fitzgerald collaborated in making a first down on the 10, Fitzgerald, on a reverse, romped to the 1 and Van Destinson crashed over for the score. Fitzgerald missed the try for the extra point and Holland trailed, 26-0.

After VanDestinson punted out on the 24, the Dutch, with Rotman pitching, started to move. Kenny passed to Milewski for 7, Wheaton hit center for 9 and a first down on the 40. Vern Kraai then grabbed an aerial for 15 and Wheaton crashed center for 6. The threat was stopped as Allen intercepted a pass on his own 32.

On the first play, Fitzgerald fumbled and Heneveld recovered on the 31. Rotman's first pass was again intercepted and the Dutch were stopped again. But, the Hollanders came rolling back when Palmer recovered a fumble on the Muskies 47. Wheaton hit center on two tries for 4. Rotman passed to Leeuw for 13 and a first down on the 36. Again, Rotman passed a bullet toss to Leeuw, who took the ball on the 25 and sprinted to the 15. The same combination carried the ball to the 9, but three passes were incomplete and the Reds

Straighten Frames and Axles With Modern Outfit

A great many accidents on the road today are caused by misalignment. Misaligned wheels cause the tires of a car to drag sideways, scuffing away the tread and cutting mileage about in half. Automotive Replacement Parts straightens swayed, bent, buckled or diamond-shaped frames and al-

so bent and twisted axles cold in the car, with the latest improved Bear Wheel Alignment. The firm says it is the only equipment that will do a complete wheel and chassis alignment job from start to finish. The whole job is done in a few hours and is guaranteed to correct the cause of shimmy, wan-

dering, weaving or hard steering. Casey Klompere supervises the Bear system equipment with two assistants. The aim of this firm is to supply the garagemen in this district with parts and service. Louis Vanden Brink is active head of this firm and has been connected with the organization for many years.
